BALTIMORE COUNTY

"The county does not have specific laws against feral cats but I assume you are talking about the Trap, Neuter and Release (or Return) philosophy, which is NOT recognized in Baltimore County.

Here in the county when Animal Services receives a complaint about a person who is feeding and otherwise caring for cats out in the open (feral or not), that person faces the prospect of being cited for any number of violations including licensing, "at large," animal waste, and nuisance. There are not many such cited cases but this is a bone of contention here for some of those involved in the "Reform Baltimore County Animal Services" group.

Accordingly, you should not approve any applications for a TNR-type program in Baltimore County." - Michael E. Field, County Attorney (Email, 06-10-2014)

Dear Mr. Field:

I ask for your help in determining whether any local law exists in your county that prohibits certain conduct relating to feral cats.

The reason for this request is that the Department of Agriculture is implementing a recently enacted program to reduce dog and cat overpopulation and is required by State law, under §2-1602(f)(2)(ii)2 of the Agriculture Article, to determine whether any local law exists in Baltimore County that prohibits a person from spaying or neutering feral cats and then releasing them back to their former location. Is there such a law in your county? If so, would you please give me the citation for this local law. We would greatly appreciate your response by completing the following and returning it to me by email or regular mail by September 1.

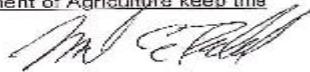

Please check one of the following:

- A. No local law in Baltimore County prohibits a person or organization from spaying and neutering feral cats and then returning, or releasing them to their former location.
- B. Yes, local law prohibits the spaying and neutering of feral cats in Baltimore County and returning them to their former location, and the citation to that law is There is no local that specifically "prohibits the spaying..neutering" and return of feral cats but the practice can subject a person to a civil penalty as follows:
Under our animal law, "Owner" means a person owning, keeping, harboring, or acting as custodian of a domestic animal." § 12-1-101(w) Baltimore County Code, 2003. Under this broad definition of "owner," a person engaged in the behavior described in your question can face a citation for several violations including:
§ 12-3-110. ANIMAL AT LARGE PROHIBITED.
An owner of an animal may not allow the animal to be an animal at large.
§ 12-3-109. PUBLIC NUISANCE ANIMALS.
(a) "Public nuisance animal" defined. In this section, "public nuisance animal" means an animal that:
(1) Damages the property of a person other than its owner;

- (2) Causes unsanitary conditions in or on public property;
(3) Excessively makes disturbing noises;
(4) Chases passing vehicles; or
(5) Is an animal at large that is female dog or cat in heat.
- (b) Prohibition. An owner of an animal may not allow it to be a public nuisance animal.

Actual enforcement is rare if not non-existent for any number of reasons, including the difficulty of determining who picked up the cat, had it spayed and then left it "at-large" again in the feral cat colony but the Baltimore County Health Officer has made it very clear that he does not believe that TNR is good public health or good public policy. We ask that the Department of Agriculture keep this in mind when awarding the grants.

Thank you for your help.

Sincerely,

Craig A. Nielsen
Assistant Attorney General

CAROLINE COUNTY

"In response to your request for information regarding the feral cat populations, I can inform you that the Caroline County has no local laws addressing the feral cat population.

I've provided sections of our County code that address cats in other terms for your information as follows:

In Caroline, a cat can be considered an animal at large and "[a]ny person who finds and harbors a stray animal shall report the finding to Animal Control. An animal control officer who observes an animal at large may pursue that animal on public or private property." (See § 78-9Animal at large);

And,

A cat may be considered a public nuisance if they are not confined when in season. "Every female dog or cat in season must be humanely confined in a building or secure enclosure in such a manner that the female dog or cat cannot come into contact with an unneutered male of the same species except for planned breeding arranged by the respective animal owners. This does not exclude normal waste elimination while under physical restraint and direct supervision and on the owner/custodian's property" (See § 78-10Public nuisance animal);

And,

If impounded, an unclaimed cat must be not be "released for adoption without being reproductively neutered or without written contract with the adopter guaranteeing that the animal will be neutered within 30 days for adult animals or by a specified future date in the contract for puppies or kittens. Animal Control shall train employees to inform the public of local neutering and health care cost assistance programs available to qualifying persons. A deposit established by Animal Control shall be paid by the adopter at the time of adoption and refunded once proof of neutering is presented to Animal Control." If you would like a copy of the agreement, please let me know.-John Norris, III, County Attorney, Calvert County (Email 07-23-2014)

AGREEMENT

This Agreement is dated 9/28, 2004, and is made by and between the Board of County Commissioners of Calvert County, Maryland (the "County"), a body corporate and politic, and the Friends of Felines (the "Friends").

WHEREAS, the Commissioners and the Friends desire to reduce the feral cat population in Calvert County and the needless euthanization of these cats; and,

B. Insurance and Indemnification.

1. The Friends shall provide general liability insurance in the amount of One Million Dollars (\$1,000,000.00) insuring volunteers and the general public against any injury sustained as a result of the Friends activities on the premises. The policy shall name the County as a co-insured.
2. In consideration of being allowed to use the Hughes Tree Farm for the purposes of a feral cat sanctuary, the Friends and its organizational members hereby agree to indemnify, defend and hold harmless the County and its officers and employees from and against all claims, demands, suits, liabilities, damages, losses and expenses resulting from or in any way arising out of the use by the Friends of the property as described in this AGREEMENT, which causes bodily injury, illness, death or other damage to persons or property, including but not limited to the property of the County.

C. Term of Agreement. The term shall begin upon execution of this AGREEMENT, and shall continue until terminated as provided below. Either party may cancel this AGREEMENT upon thirty days written notice to the other party. In the event the AGREEMENT is canceled, the

MONTGOMERY COUNTY

"I was forwarded your email by Marc Hansen to respond to because I serve as Counsel to Animal Services Division (the ASD).

§ 5-401 and § 5-402 of the Montgomery County Code requires that all cats over 4 months of age be licensed and wear a license tag whenever outside the owner's home. § 5-203 (a)(i) does exempt altered cats from the at large statute; however the code also states that an owner must not allow their cat to trespass on private property without the property owner's permission (§ 5-203(a)(2)). In addition, the code states that an owner must not allow a cat to defecate on property outside the owner's property (§ 5-203(a)(2)).

§ 5-101 of Montgomery County Code defines an owner as a person who, regardless of whether the person has legal title to the animal:

temporarily or permanently harbors or controls an animal;
has a property right in the animal; or
allows a person under 18 years old to harbor or control an animal.

§ 5-101 of Montgomery County Code defines "harbor" as:

1. to provide food or shelter to an animal.

In consideration of Chapter 5, the ASD has a limited legal ability to release feral/community cats that are brought to the Center back into the community. Because of this, the ASD has developed a Feral/Community Cat Policy. I have attached the policy to this email.

(Document provided below)

**Montgomery County Department of Police
Animal Services Division (ASD)
FERAL/COMMUNITY CAT POLICY**

Chapter 5 of the Montgomery County Code requires that all cats over 4 months of age be licensed and wear a license tag whenever outside the owner's home. The Code does exempt altered cats from the *at large* statute; however the code also states that an owner must not allow their cat to trespass on private property without the property owner's permission. In addition, the code states that an owner must not allow a cat to defecate on property outside the owner's property.

The Montgomery County Code defines an owner as a person who, regardless of whether the person has legal title to the animal:

1. temporarily or permanently harbors or controls an animal;
2. has a property right in the animal; or
3. allows a person under 18 years old to harbor or control an animal.

The Montgomery County Code defines "harbor" as:

1. to provide food or shelter to an animal.

In consideration of Chapter 5, the ASD has a limited legal ability to release feral/community cats that are brought to the Center back into the community. Therefore, we rely on local community cat groups to claim and monitor such cats.

Should an identifiable feral cat (through microchip or ear tip) come into the shelter, we will attempt to reunite the cat with its caregiver. In the case of a feral cat that is found to be microchipped, we will contact the person (or group) to whom the chip is registered. In the case of an ear-tipped cat, we will contact Alley Cat Allies, Metro Ferals, and Rock Creek Cats by email with a photo and description of the cat. If any of these groups wish to claim the cat, they will have 48 hours from receipt of the email to contact the ASD and/or come claim the cat. All cats will receive a rabies vaccination and license at the time of release from the ASD, as well as a microchip (if not already chipped).

Our officers will continue to respond to citizen complaints about problems with cats and enforce the law as required.

After officer review of the situation, we will loan humane traps to citizens who are seeking help with cats, both for nuisance situations and for individuals who wish to manage a feral/community cat colony.

We will also have a limited number of safe ultrasonic cat deterrent devices available for loan to citizens experiencing nuisance cat situations.

We will evaluate every cat that comes into our shelter and attempt to make the best decision for each individual animal.

We will seek responsible solutions to improve the lives of cats in Montgomery County.

We will support the efforts of local groups such as Alley Cat Allies, Metro Ferals, and Rock Creek Cats to work with citizens in managing feral/community cat colonies."- Jodi Strauss Schulz, Associate County Attorney (Email 06-05-2014)

PRINCE GEORGE'S COUNTY

RE: Prince George's County Laws Concerning

Feral Cats

Dear Ms. Mallory:

The Prince George's County Office of Law received your email dated June 4, 2014. The email explained that the Maryland Department of Agriculture will be responsible for administering the new Spay and Neuter Grants Program (the Program), created by Senate Bill 820 of the 2013 Maryland General Assembly. The Program aims to reduce statewide shelter overpopulation and euthanasia rates by awarding competitive grants to local governments and animal welfare organizations for spay and neutering projects. Under the Program, "...a competitive grant proposal...may target feral cat populations if the Department determines that this targeting does not violate local law." Md. Code Ann., Agric. § 2-1602(f) (2) (iii) (2). In the email you asked whether Prince George's County (the County) had any laws specific to "feral cats."

The County enforces laws related to feral cats in Sections 3-122, 3-135, and 3-116 of the Prince George's County Code (the Code). Notably, Section 3-101 (a) (43) defines the term "feral"; however, the term is not used throughout the rest of the Code.

Section 3-122(c) of the Code, detailing the County's impounding procedures, gives the Administrator of Animal Control discretion to euthanize an animal that shows signs of severe behavioral maladjustment. Feral cats usually show signs of "severe behavioral maladjustment," and are euthanized under this Section because they pose an unreasonable threat to the safety of personnel caring for them.

Additionally, Section 3-135 prohibits animals at large, and is relevant to the "trap-neuter-release" method that animal welfare organizations might implement under the Program. Under Section 3-135(a) (1), it is unlawful for a person to confine or secure an animal (including a feral cat) on property other than the premises of its owner. This Section generally prohibits the trap-neuter-release method; however, animal welfare organizations comply with the Section by obtaining permission from the property owner to trap the feral cats on the property owner's premises. Section 3-116(a) (1) imposes civil fines ranging from \$50 up to \$250 for using a trap-neuter-release method without the permission of the property owner.

Enclosed is a copy of each Code Section mentioned above. A copy of the County's laws related to "ear-tipped cats", Section 3-122(e) through (g), is also enclosed with this letter. I trust this fully answers your inquiry. If you have any questions or need further information, please contact me at (301) 952-4028.

Sincerely,

John M. Gwynn
Associate County Attorney

[NOTE: THE ITEMS HIGHLIGHTED IN THE FOLLOWING WERE INDICATED BY MR. GWYNN AS THOSE THAT THE COUNTY ATTORNEY'S OFFICE DETERMINED WERE PERTINENT TO FERAL CATS.]

This Chapter is intended to provide supplemental additional regulation. Nothing in this chapter is intended to supersede, modify, or repeal any existing state law, rule, or regulation, except to the extent that state law delegates the power to the County Council to do so and the Council has exercised that authority expressly or by necessary implication.

Dear Mr. Martirano:

I ask for your help in determining whether any local law exists in your county that prohibits certain conduct relating to feral cats.

The reason for this request is that the Department of Agriculture is implementing a recently enacted program to reduce dog and cat overpopulation and is required by State law, under §2-1602(f)(2)(ii)2 of the Agriculture Article, to determine whether any local law exists in Washington County that prohibits a person from spaying or neutering feral cats and then releasing them back to their former location. Is there such a law in your county? If so, would you please give me the citation for this local law. We would greatly appreciate your response by completing the following and returning it to me by email or regular mail by September 1.

Please check one of the following:

- A. No local law in Washington County prohibits a person or organization from *Jmm* spaying and neutering feral cats and then returning, or releasing them to their former location.
- B. Yes, local law prohibits the spaying and neutering of feral cats in Washington County and returning them to their former location, and the citation to that law is _____.

Thank you for your help.

Sincerely,

Craig A. Nielsen

A copy of this email is being forwarded to the local Health Department and the Humane Society who have had inquiries involving feral cat colonies in the past as well." - Edgar A. Baker, Jr., County Attorney (Email 06-04-2014)
